Versatility, Flexibility
and Simplicity

HIGHRIDGE

Mergence Anterior Preparation Instrumentation

The Mergence Anterior Preparation Instrumentation was designed by spine surgeons to provide a complete set of tools for access, discectomy and endplate preparation from an anterior approach. It complements the Highridge Spine implant-specific instrument sets to provide the total solution for anterior spinal surgery.

- The comprehensive instrument set provides multiple options to accommodate varying anatomy and surgeon preference.
- The handles are contoured for a two-handed grip and have a comfortable and durable silicone surface for enhanced ergonomics.
- The instrument shafts have an anti-glare coating for improved visualization.
- The versatile Mergence Lumbar Distractor is available for anterior, anterior/lateral and lateral procedures.

Other Products Available from Highridge Medical:

- Durango® ALIF System
- Epic™ Anterior Thoracolumbar Plate
- Mergence Lumbar Distractor
